

Wow! This must be one of the most oppressive draconian attempts by a trade association to stifle consumers. The FCC does not

only serve the industry they regulate, they serve the people of the United States of America. I feel it is time that the FCC stop

bowing to the pressure of trade associations/the movie and music industry and stand up for the rights of Americans to enjoy

entertainment.

So, I can hook up my old VCR to time shift a movie I want to rent, but I can't do that with my DVR? Stupid, just plain stupid.
